Experienced **Quality Engineer with 3.4 years of experience** in the IT industry and a proven track record in software testing.
Passionate Quality Engineer with a knack for uncovering hidden defects through a blend of **Functional and Accessibility testing** methodologies. Eager to apply my skills in an innovative environment, where I can contribute to not just error detection, but also to crafting user-centric experiences that adhere to the highest accessibility standards. My goal is to be an integral part of a team committed to delivering software excellence with an inclusive and user-friendly approach.

A **web developer(Software Trainee) with 9 months of experienced** in building and managing websites for small businesses. I am comfortable working with a variety of content management system and can do designing, coding, and maintaining websites.
